

YOU'VE TESTED TO BE POSITIVE

The air is warm, and April is almost here.
School is canceled, and everywhere there's fear.
Germs are aplenty, but supplies hard to find.
Store shelves are barren, which reminds us to be kind.
We drop this gift, at night at your door.
As a gentle reminder, to fear no more.
Quarantined and bored, staring at your phone.
Keeps you from knowing, that you're not alone.
As the CORONA Virus spreads, in multiples of two.
So will this act, when passed on by you.
Make a couple of copies, and fill a bag with what you may,
Then share with two neighbors, within the next day.
So join in our game, while the flu season is here,
And spread COVID caring, and with it good cheer!

share your experience at

**WE MAY BE
QUARANTINED,
BUT WE ARE NOT
ALONE!**

My neighbor cares!
